

School Finance Reform in the 86th

The Road to House Bill 3

Region 3

July 31, 2019

The Plan is based on these basic elements

- All districts are funded alike
 - All school funding elements are in Chapter 42
 - No funding elements in Chapter 41
 - There are NO Chapter 41 and 42 districts
- One Basic Allotment for everyone – AND it applies to all pennies of tax rate from \$0.01 through \$1.17
 - There is only one tier, with all 117 pennies funded at the same level
 - No Guaranteed Levels
 - No Equalized Wealth Levels
 - No Tier 2, Golden or Copper Pennies

The Plan is based on these basic elements

- No prior year value surprises or inequities
- Guaranteed revenue – no tax collections surprises
- WADA is calculated by a much simpler formula
 - No funding is determined by WADA calculations
 - WADA is only used for equity measurements
- Collections do not determine funding
 - It is a stable system based on the needed funding level, not the state of a district's economy
- No convoluted recapture calculations that no one understands
- Everyone treated the same for ASF Per-Capita and Transportation

Efficiency Savings

- The plan eliminates inefficient, **non-cost based elements** from the current funding system
- This creates **efficiency savings** that can be used to address important funding issues in ways that **benefit all Texas' children and taxpayers**

- High School Allotment
- Staff Allotment
- Early Agreement Credit
- 1993 Wealth Hold-harmless
